2023MY and Beyond SUPER DUTY Vehicles Equipped with Vehicle Integration System 2.0

KEY INFORMATION

Release Date: The latest version of Vehicle Integration System 2.0 will be released on October 11, 2023.

Mandatory Upgrade: It is important to note that this upgrade is mandatory. Once the latest version is released, the previous version will no longer function. To continue enjoying uninterrupted access to our services and to take advantage of the latest features and enhancements, please ensure that you install the latest version.

Installation Instructions:

1. Uninstall the version of Vehicle Integration System 2.0 that you are currently using.
2. Navigate to the Vehicle Integration System 2.0 home page.
    a. US - https://www.fordpro.com/en-us/upfit/uis
    b. Canada - https://www.fordpro.ca/en-ca/upfit/uis
3. Click Sign In and Download
4. Sign into your account.
5. Click to download version [version]
6. Install Vehicle Integration System 2.0 and Login

Benefits of the New Version:

- New Canvas
    - Drag and Drop blocks anywhere on the canvas for more efficient use of space and better organization.
    - Zoom and Pan
- Additional Support for the Transit Custom vehicle line (Europe)
- Several minor enhancements and bug fixes
- Important Security Updates

Thank you for your continued partnership, we are confident that this upgrade will significantly benefit your operations, and we appreciate your cooperation in ensuring a smooth transition to the new Ford Pro Vehicle Integration System 2.0.

Need Support?
